# Digitizer V5

DIGITIZER V5.0R UPDATE 5

DIGITIZER V5.0R UPDATE 5

This page describes the Digitizer V5.0R Update 5. This update focuses on security and activation issues. Please check your Help > About to make sure you have the Digitizer V5.0R update installed.

> The date may differ in your particular installation, but the version number needs to be V5.0R.

V5.0R is a security update for only users experiencing security related issues.

Latest driver

The latest security driver V7.80 is included in this update. It also resolves problems with early software license expiry.
