## HATCH ADD-ON FONTS

This document lists all fonts that are non-standard and can be purchased as extra-cost ‘add-ons’ with Hatch Embroidery Software. Add-on fonts can be purchased as font packs with Personalizer (previously called Monogrammer), Composer, and Digitizer. No fonts are included with Organizer level. Font packs can be purchased from the Hatch website.

### Join method

The lettering join method is preset to give the best results for each font. Options include:

Join	Purpose
Bottom join BJ	Letters are joined along the baseline. Use it when stitching on towelling – joins are hidden in the pile.
Closest join CJ	Letters are joined at the closest point. Use it to minimize trims.
As digitized AD	Letters are joined as they were digitized. Use it with fonts combining different fill stitch types or special effects.
